

TIRE PRESSURE CONTROL SYSTEM (RDC) PROGRAMMING AND DIAGNOSTIC TOOL

This Service Information Bulletin replaces TRI 3619 dated January 2019.

- This bulletin is information only; no claim information intended

MODEL

G20 (3 Series Sedan)

INFORMATION

New RDC wheel electronics will be introduced starting with the G20 3 Series. The new wheel electronics are identified as Huf Generation 5. These new wheel electronics will need to be programmed using the new tool when replaced or when depressurized (0 psi) for more than 2 minutes.

The new RDC tool has diagnostic capabilities as well and can be used on previous Generation 3, 4 & 5 wheels electronics.

For information regarding the tool usage and capabilities refer to the attached B36 01 19 RDC Technical Training Product information.

For more information regarding the new RDC tool refer to [SI B04 01 19](#).

Operation of the RDC tool can be found in the attached B36 01 19 RDC Tool Operations Manual.
